

CAP CYBER PROGRAMS NATIONAL CYBER MISSION TEAM VOLUNTEER OPPORTUNITY Asst Deputy for Cyber Defense (Senior Member)

The National Cyber Mission Team is seeking support in the area of cyberspace operations for defensive measures.

The Assistant Cyber Deputy for Operations - Defensive Measures will assist in the identification of qualification requirements which fit into the existing SQTR process for credentialing members to participate in operational activities. They will also assist the Deputy for Cyber Operations in coordination with the Deputy for Enabling Capabilities to develop the training and evaluation material required, legal and partnership agreements, and financial requirements to complete and enable member reimbursements for cyber missions.

Assists in identifying, developing and bringing to market capabilities to meet customers' operational needs. This will include operational capabilities related to defensive measures of varying types, and may include ancillary tasks which enable customers to better leverage their existing cyber force.

Specific Responsibilities:

Identify and assist in the coordination of needs with customers

Assist the Deputy Director for Cyber Operations regarding mission types, tasks, requirements

Assist in providing requirements to and work with Deputy for Enabling Capabilities to achieve outcomes

Assist the Deputy for Cyber Operations and other Cyber Operations staff build SQTRs, define requirements, work with customers to define mission parameters, costs, legal requirements, technology needs

Assist the Deputy for Cyber Operations in coordinating with National, Region and Wing staff for cyber education to provide consistency across programs (i.e. OpSec, Encampments, Wing and Region cyber courses)

Experience and skills desired:

5+ years' experience in Cyber defense or prevention roles

5+ years' experience in Civil Air Patrol, military and/or civilian cyber planning and response operations

Certification related to cybersecurity technology or methodology to include CSSLP, CHFI, CCNA-CyberOps, CISSP, CISM or similar

Ability to clearly articulate a vision, mission and outcomes desired

Ability to communicate effectively with others

Application Requirements:

- You should have your unit commander's permission before you apply. A letter of recommendation (LoR) from your Reporting Senior is highly desired.
- CAP and/or civilian resume
- You will report to Lt Col Jeff Thomas, Deputy Director for Cyberspace Operations

If interested, please contact Lt Col Bryan Pettigrew, National Cyber Mission Deputy Director for Mission Support bpettigrew@cap.gov, (571) 969-5894.
